The Middletown Township Committee introduced its \$79.9 million budget at the beginning of April. The proposed 2019 Municipal budget reduces the tax rate from .489 in 2018 to .476, a 2.66% decrease.

The proposed budget includes additional funding for more than 70 parks that span across Middletown's 16 neighborhoods, as well as an increase of \$470,000 to the Capital Improvement Fund, which requires no debt, that will provide the town the ability to complete more capital projects. It also covers the approximate 3.5% increase to maintain and improve the Township's 375 miles of roads.

Approximately 63% of households will see a \$25 or less increase in their tax bill this year, while 51% of households will have a 0% increase or see a reduction in taxes. In an effort for residents to gain a greater understanding of where their tax dollars are being spent, the Township will be releasing a "Tax Dollar Receipt" calculator on the website in May that will provide a way for residents to see penny for penny where their tax dollars go.

Mayor's Wellness Campaign Launches in May

The Mayor's Wellness Campaign, a statewide program that gives mayors tools and strategies to champion healthy living in their communities, is coming to Middletown! Join Mayor Perry and the Township Committee in this initiative to help make our a healthier place to live, work and play. Events will be held on the 2nd Thursday and 3rd Saturday of each month from May through September. Visit www.middletownnj.org/wellness for a complete list of activities. Stay tuned for more information regarding Middletown's inaugural Mayor's 5K Challenge and 1 Mile Fun Run on Saturday, October 19th! All proceeds will benefit our first responders.

Mobile Town Hall Events a Success

Throughout the month of March, residents had the opportunity to meet with the Mayor and members of the Township Committee, Department Heads and staff at four Mobile Town Hall events held across town. Representatives from various departments were available to speak with residents, provide information and answer questions in an informal setting. Events were held at the Lincroft Fire Company, Middletown Township Public Library, VFW Post 2179 and Fairview First Aid.

In an effort to help residents cut down on waste, DPW is now accepting clean single use plastic shopping bags at the Middletown Recycling Center (52 Kaness Lane). You can also drop off your plastic bags at many stores in Middletown, including ShopRite, Stop & Shop and Target.

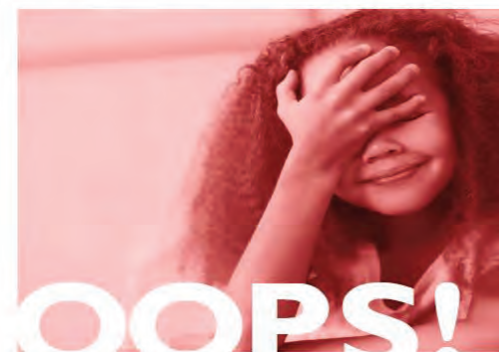

Recycling Education Campaign

In March, Middletown Township launched a Recycling Education Campaign to help residents understand what can and cannot be recycled and how to do so properly in our single stream recycling system.

When a town does not recycle properly, it increases the cost of garbage and recycling collection, which will directly impact taxpayers. The driving force of this campaign has been to correct how we recycle as a whole and to teach residents about the importance of keeping recyclables loose in the cart and not placing them in plastic garbage or grocery bags. In Middletown, plastic bags are responsible for over 70% of the contamination of our single stream recycling. To learn more about plastic bags and how they can affect taxes, visit www.middletownnj.org/plasticbags.

As of Earth Day (April 22nd), Middletown will no longer accept recycling in plastic bags or any other violation of Township rules for recycling collection. DPW has been issuing warning stickers to help educate residents as to what is and isn't recyclable. Visit www.middletownnj.org/recyclingcollection to view the list of recycling violations.

For additional information about recycling in Middletown, visit www.middletownnj.org/recycling or download the free Recycle Coach app to quickly learn how to dispose of items properly and view your personalized garbage, recycling and bulk collection schedule. You can also call the Department of Public Works at 732-615-2109.

Message From Mayor Tony Perry

This June, the Township is expected to break ground on our Municipal Complex. The existing Town Hall was built almost 60 years ago and understandably the Township has grown significantly since that time and the current building does not meet today's needs or standards. For example, 60 years ago Middletown didn't have any female police officers. While I'm proud to say that we now have the most female police officers in all of Monmouth County, the current Police Department in Town Hall doesn't provide

Conceptual rendering for the New Municipal Complex- Subject to change

the necessary amenities for them. The building also doesn't meet current Court standards dictated by the State. To rehab the current facility would cost the town between \$15-20 million and would still be tremendously outdated and inefficient. For these reasons, the governing body opted to do a Public-Private Partnership at a Guaranteed Maximum Price. This means that there will be no cost overruns—absolutely none. What the building costs today is the same amount it will cost when we're cutting the ribbon for its grand opening in the summer of 2021.

As the 16th largest municipality in the State of New Jersey, Middletown should be able to provide our residents with a one-stop-shop to get a new or renewed passport, dog license and pay your taxes in a centralized location rather than going to three different buildings scattered across town. The new complex will also offer free and convenient meeting spaces for community groups and local organizations, as well as the opportunity to provide shared services with the County and our surrounding towns.

In an effort to explain the governing body's decision to build this state-of-the-art and energy efficient Municipal Complex, below are some answers to commonly-asked questions.

Q: What are some of the key drivers causing the need for this project now?

A: A key driver is the inadequacy of the current facilities. For example, when the current Town Hall was built almost 60 years ago, Middletown had a 28 member Police Department and no female police officers. As of 2018, Middletown has a 126-member Police Department, including 12 female officers and 12 Special Officers, and that number is growing each year. Currently the facilities for female officers, particularly the locker room and shower facilities, are inadequate even for the number we have now. This is a change that must be made.

There are substantial portions of both the Main Town Hall and the Johnson Gill Annex that are below grade, thus creating a poor-quality working environment and one that can become more problematic over time relative to air quality and mold. The lower level of the main Town Hall building floods regularly with any large rainstorm event. This requires untold man hours to resolve each time.

Another key driver is the lack of environmental consideration in our existing buildings. Our buildings to date are extremely energy inefficient, resulting in a great waste of money, especially for natural gas and electricity. Repairs and upgrades to the existing buildings, largely due to their age, are merely band aids and not the best use of money over time. The new building will include the latest in efficient design and construction and will benefit township residents and taxpayers for generations to come.

Q: Why build a brand new building instead of renovating what we have?

A: Due to the age of the buildings on site, renovation is not a viable option. A major renovation to the current main Town Hall building would mean that the Police, Court and Administration would have to move to temporary facilities since their functions cannot cease or shut down. Finding space that could accommodate Municipal Court and Police operations and meet their very unique requirements would be very difficult to do. This would mean a substantial cost to lease such space for approximately two years. In many cases, renovating and trying to retrofit old buildings and bringing them into compliance with today's standards for safety, security, efficiency and ADA compliance is more expensive than building something brand new.

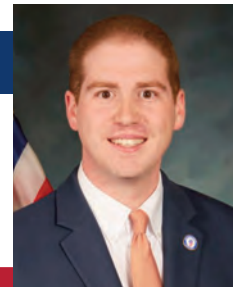

Q: What about doing an addition to the existing Town Hall?

A: At a minimum an addition to the existing Town Hall would need to be about 23,000 sq. ft. and cost approximately \$11 million. This would only be enough to bring workers out from the basement level and address some of the Police Department's inadequacies. It would not allow us to consolidate all offices and departments, address the issues relative to the Municipal Court, or address the very costly functional issues with the existing buildings. Such a project would result in annual debt of about \$660,000 per year on top of our current annual operating costs of more than \$300,000 per year going forward.

Q: Why use a sale leaseback arrangement rather than conventional Municipal financing?

A: There is a growing trend nationwide, even worldwide, to do public projects in this fashion. For example, New Brunswick, Jersey City as well as Gloucester and Union Counties have used the Public-Private Partnership, also known as a P3, approach. The idea is that private development companies can usually build public projects more efficiently than the public sector can. This is largely due to the fact that most public agencies are not generally in the "development business" on a day-to-day basis. A key feature that P3 projects usually have is what is known as a GMP or Guaranteed Maximum Price. This means that once a price is quoted by the developer/builder, that amount is set. There can be no cost overruns or change orders which increases the costs during construction. The risk for any cost overruns are borne by the builder not the taxpayers. By making annual lease payments we avoid borrowing and adding Municipal debt. We will also be developing pad sites so the Township can offset some of the construction costs with revenue from either the sale or lease.

EMS Seeks Teens to Volunteer as Cadets

EMS Cadets are young men and women, ages 14 to 18, who learn basic life-support skills (CPR, splinting, applying tourniquets, bloodborne pathogens training, etc.) by working side-by-side with current EMT volunteers. At age 16, they can ride the ambulances in Middletown and further their skills and experience to become first aid members. The EMS Department will pay for EMT school and they also offer scholarships for those who are planning on going into the medical field. High school students interested in joining can text Lead Advisor Rich Yarczower at (732) 673-7646 for more information.

Top Tips to Avoid Lyme Disease

If you're spending time in tick-infested areas between now and September, you're most prone to Lyme Disease because that is when ticks are most active. Here are 7 tips to help prevent the disease:

1. When hiking, walk in the center of the trail to avoid high grass and leaf litter areas.
2. Mow and trim your lawn regularly to avoid making it a breeding ground for ticks.
3. Wear light-colored clothing to make it easier to find ticks on your clothes.
4. Use 20-30% DEET repellents on exposed skin for protection against ticks for up to 4 hours.
5. Apply repellents containing permethrin on clothing and gear, which will safeguard you through several washings.
6. Check yourself for ticks regularly once you have entered a tick-infested area.
7. Check for ticks on all exposed skin. Take extra care to inspect the scalp, under the arm, behind the ear, in the groin, and on the ankle.

What to Do When You Find a Tick

1. Remove the tick immediately before it attaches to the skin and avoid crushing or squeezing.
2. Use tweezers to grab the tick's head if it has already attached to the skin.
3. DO NOT squeeze, cover, or burn an attached tick. Doing any of these risks the tick's fluid, and potentially a tick-borne illness entering your skin.
4. Disinfect the bitten area after removing the tick with alcohol or hot water.
5. Consult with your physician.

Visit www.cdc.gov/ticks/diseases/ for more information on tick-borne diseases.

Stormwater Pollution Prevention Program: A Guide to Healthy Habits for Cleaner Water

Non-point source pollution is a contamination of our groundwater, waterways, bays, and ocean that results from everyday activities such as fertilizing the lawn, walking pets, changing motor oil, washing cars, and littering. With each rainfall, pollutants generated by these activities are washed into storm drains that flow into our waterways and ocean. They also can soak into the ground and contaminate the groundwater below. The collective impact of non-point source pollution threatens aquatic and marine life, recreational water activities, the fishing industry, tourism, and our precious drinking water resources.

Stormwater pollution is one of New Jersey's greatest threats to clean and plentiful water, and that's why we are asking for your help to do something about it.

By sharing a portion of the responsibility and making small, easy changes in our daily lives, we can keep these common pollutants out of stormwater. It all adds up to cleaner water and it saves the high costs of clean-up once it becomes polluted.

As part of New Jersey's initiative to keep our water clean and plentiful and to comply with federal requirements, the Township of Middletown has adopted ordinances to prohibit various activities that contribute to stormwater pollution, including ordinances regarding Pet Waste, Wildlife Feeding, Litter Control, Improper Disposal of Waste, Containerized Waste/Yard Waste Collection, Private Storm Drain Inlet Retrofitting and Illicit Connection.

Here are some ways you can help reduce nonpoint source pollution:

Place litter in trash receptacles. Place litter, including cigarette butts and fast food containers, in trash receptacles. Recycle, Recycle, Recycle!

Avoid overuse of fertilizers. Do a soil test to see if you need to add fertilizer. Avoid the overuse of fertilizers and do not apply them before a heavy rainfall. If you use fertilizers, follow the label directions carefully.

Use alternatives to pesticides. Many household products made to exterminate pests are toxic to humans, animals, aquatic organisms and plants. Follow the label directions carefully. Use alternatives whenever possible.

Clean up after your pet. Animal wastes contain bacteria and viruses that can contaminate shellfish and cause the closing of bathing beaches. Pet owners or their keepers must pick up and properly dispose of pet waste dropped on public or other people's property. Dispose of wastes in the garbage or toilet.

Don't feed wildlife. Do not feed wildlife, such as ducks and geese, in public areas.

Dispose of yard waste properly. Keep leaves and grass out of storm drains. Use leaves and grass clippings as a resource for compost. Refer to our website, www.middletownnj.org, for the Township's rules, guidelines, and schedule for leaf and brush collection.

Properly use and dispose of hazardous products. Many common household products contain toxic ingredients. Use natural and less toxic alternatives whenever possible. Do not pour any hazardous products down a storm drain because storm drains are usually connected to local water bodies.

Recycle used motor oil. Used motor oil contains toxic chemicals that are harmful to animals, humans and fish. Recycle all used motor oil by taking it to a local, public or private recycling center.

Wash your car only when necessary. Consider using a commercial car wash that recycles its wash water. If you wash your car at home, use a non-phosphate detergent.

Inspect your septic systems annually. An improperly working septic system can contaminate groundwater and create public health problems. Inspect your tank annually and pump it out every three to five years depending on its use.

Keep pollution out of storm drains. The Township has labeled and marked all storm drain inlets. Labels remind residents that these storm drains are connected to local waterways. Do not let sewerage or other wastes flow into a stormwater system.

Don't dump boat sewerage overboard. Dumping boat sewerage overboard introduces bacteria and viruses in the water. It may also be illegal. Boat owners should always use marine sanitation devices and pump-out facilities at marinas.

It is important to remember these easy things you can do to assist with restoring the health of our streams and environment. Please refer to Middletown Township Ordinance Chapter 423 & Chapter 540 for our adopted stormwater pollution ordinances. Additional stormwater related topics can be found at www.cleanwaternj.org and www.middletownnj.org.

Middle-town Green Team at greenteam@middletownnj.org, NJNG's The SAVEGREEN Project at 1-877-455-NJNG (6564), or NJ Clean Energy Program at 1-866-NJSMART.

Mayor Tony Perry spoke about some of the Township's energy-saving initiatives and touted his recent energy audit experience through SAVEGREEN.

US Army Corps of Engineers Port Monmouth Flood Control Project Update

The floodwall currently under construction along Port Monmouth Road by the County Marina will be finished this summer. Construction of the tide gate and pump station in Pews Creek continues with completion planned for April 2020. A contract will be awarded to raise Hwy 36 at Wilson Avenue this summer. Real estate and land surveying operations have begun on properties where the proposed floodwall and levee system are to be constructed. This flood protection barrier will be constructed along Hwy 36 from Wilson Avenue to Creek Road through to Main Street then connecting to a raised portion of Port Monmouth Road. These final phases include construction of a pump station on Main Street near Renfrew Avenue. Final project completion is expected in late 2021.

Cole Porter Concert

Saturday, October 12th . 2:00 PM - 3:00 PM

This program is presented by Barbara McCarthy, vocals, and Regan Ryzuk, accompanist on piano. Cole Porter wrote lyrics and music for many Broadway hit musicals between World War I and II. Much of his work came from his own worldly travels and experiences which produced the cheerful lover in "You're the Top" and "It's Delovely", and the wistful soul in "Every Time We Say Goodbye". The burning obsession in "I've Got You Under My Skin" and wanton bravura of "Love for Sale" from THE NEW YORKERS are purely Porter at his best.

Events for Kids

All events will take place in the Community Room.

The MAC is proud to announce the American Repertory Ballet/Princeton Ballet in residence at The Center! In addition to classes for children, the Princeton Ballet will be offering a special dance program for adults with Parkinson's Disease and their caregivers. The classes are infused with guided imagery, vocalization, and movement from several different genres of dance to provide participants with a holistic and dynamic experience. The Dance for Parkinson's teachers and volunteers encourage participants to 'think like a dancer'; to indulge in creativity, expression, and shared humanistic experiences. This inclusive program is open to all levels of ability, and although participants may experience therapeutic relief, this class is not considered therapy. It is solely a place where people come together to move, share and enjoy the elements of dance. If you know anyone who would benefit from this unique program, please have them call the MAC at (732) 706-4100.

Middletown Recreation Recognized by New Jersey Recreation and Parks Association

The Middletown Recreation Department was recently recognized by the New Jersey Recreation and Parks Association (NJRPA) for their outstanding work.

Recreation Director Janet Dellett won the "Excellence in Health & Wellness Programming" category for **Middletown Moves**, a program that began in 2016 as a way to promote health and wellness among Township employees. Recreation's Marketing and Special Events Coordinator Kim Lofgren won the *Agency Showcase Award for Design Excellence* for a promotional postcard for the Annual Santa Ferry Ride.

The Recreation Department will continue their commitment to supporting the health and wellness of our community through the upcoming **Mayor's Wellness Campaign**. The campaign is set to kick off next month and will provide monthly opportunities for residents to participate in free health and wellness seminars and activities at our Recreation Facilities throughout town such as tennis, beach volleyball, bike rides, yoga classes and more! **The Mayor's Wellness Campaign** will culminate with the first annual Mayor's 5K at this year's Harvest Hullabaloo at Poricy Park on Saturday, October 19th. All proceeds will benefit Middletown's first responders.

Be on the lookout for the schedule of events and how to register on www.middletownnj.org!

Mayor Tony Perry commended Recreation Director Janet Dellett (left) and Marketing and Special Events Coordinator Kimberly Lofgren on their commitment to excellent programming.

A monthly program designed for elementary-aged children to explore with their parents. A different topic every month, but always involving hands-on science! Past popular topics have included making slime, electricity experiments, making maple syrup, and netting in the pond.

Middletown Preschool is going full day! They will continue to offer the same great half day programs, but there will now be a full day option available, as well as before or after care for those working families that need it.

Join in on the fun with the Recreation Department's love for learning in their small teacher-to-student ratios. Their certified Early Elementary Education teachers have over 50 years combined of classroom management. The age-appropriate curriculum includes social skills, arts & crafts, stories, music, numbers, let-

ters, shapes, colors, science, sight words, writing skills, physical education and games. Classes are available for children 18-months through Pre-Kindergarten. The Pre-K4 program is a structured program that teaches Kindergarten readiness skills. All classes run from September through June. The school schedule runs parallel to the Middletown Board of Education schedule. Please be aware that the age of your child on October 1, 2019 will determine the class in which he/she will be registered for. Rolling admissions available.

Visit www.middletownnj.org/preschool for more information and pricing.

March for Meals at the Senior Center

Committeewoman Pat Snell recently visited the Senior Center to promote the local Meals on Wheels program. Her visit was part of an annual March for Meals awareness campaign organized by the Meals on Wheels Association of America. The goal of the campaign is to generate awareness about the growing number of seniors facing the threat of hunger in America and to encourage action on the part of the local community. Interfaith Neighbors, a local nonprofit, runs and operates

this program out of the Senior Center and provides lunches for those in need on a daily basis. If you are interested in volunteering, please call Mary at Middletown Nutrition at 732-291-0999.

Middletown Department of Public Works, 732-615-2109

Check Out the Newly-Renovated Basketball Courts at Greeley and Gordon Court Parks in Port Monmouth!

The Middletown Recreation and Public Works Departments, along with municipal engineering firm CME Associates, recently renovated the basketball courts at Greeley Park and Gordon Court Park in Port Monmouth. The courts had been destroyed after Superstorm Sandy when residents needed to move furniture and appliances out of their houses and store them there. The Township was able to use FEMA funds to refurbish the existing courts that suffered from faded striping, cracked asphalt and outdated nets. Not only do the courts look much better, but they're safer and the backboard has a lot more bounce. At Greeley Park, they added new adjustable nets. Both parking areas were also improved through the addition of handicap accessible parking spaces and walkways.

Director of Recreation Janet Dellett, her son Ridge, Committeeman Rick Hibell, Deputy Mayor Tony Fiore, Committeeman Kevin Settembrino, Mayor Tony Perry, Assistant Director of Public Works Vic Wymbs and CME Associates Landscape Architect Dominick Pensabene at the newly-refurbished basketball courts at Greeley Park.
