Monmouth County to Treat Curbside Catch Basins in Leonardo on Tuesday, 7/23 from 4-7 PM

The Monmouth County Division of Mosquito Control

has initiated a program to treat stormwater catch basins in the streets of select neighborhoods with either a history of or current indication of West Nile virus activity. A catch basin continuously holding a bit of water is a classic habitat for *Culex* mosquitoes known to amplify West Nile virus. The purpose of this preventative effort is to squelch mosquito production in these basins. There is no evidence of West Nile virus activity anywhere in the county at this time.

On Tuesday, July 23rd between 4:00 and 7:00 PM, the Monmouth County Division of Mosquito Control will be treating the curbside catch basins in the Leonardo section of Middletown.

In July 2026, the United States will mark its 250th anniversary of the signing of the Declaration of Independence – and Middletown is preparing to celebrate in a monumental way!

Middletown's America 250 Committee has already started planning thoughtful ways to commemorate this historic milestone by paying tribute to our nation's past and the part that Middletown played in it.

This multi-year initiative will run from July 1, 2024 through July 4, 2026. Much like the Bicentennial Celebration of 1976, this observance will offer a plethora of ways to learn about Middletown's history before and during the Revolutionary War and explore the significant role it had in founding America.

We are excited to embark on this journey toward celebrating this momentous

occasion in our nation's history!
