## Beware of Scams Demanding Bail Payment or Threatening Enforcement Action for Missed Court Appearances or Traffic Fines

### DON'T BE FOOLED BY SCAMS DEMANDING BAIL PAYMENT OR THREATENING ENFORCEMENT ACTION FOR MISSED COURT APPEARANCES OR TRAFFIC FINES

**The New Jersey Judiciary never initiates** unsolicited texts or emails threatening enforcement actions or demanding payment.

**No court or law enforcement agency will ever ask for bail via mobile payment apps** such as Apple Pay, Zelle, or Cash App.

**Verify:** Hang up and call the official number of the court, police department, sheriff's office, or prosecutor's office to confirm any claims.

**Bail payments for municipal court charges must be made in person**—typically with cash, a certified bond, or through a licensed bail bondsman. Charges on the Superior Court level almost never involve bail.

**Be alert for high-pressure tactics:** Threats and urgency are hallmarks of a scam. Avoid clicking links or sharing personal information.

## MTPD Promotes E-Bike Safety in PSA

# E-BIKE SAFETY

A MESSAGE FROM THE MIDDLETOWN  
TOWNSHIP POLICE DEPARTMENT

Across the country, and right here in Middletown, we're seeing a surge in injuries involving electric bikes and scooters, especially among young riders.

Deputy Chief Paul Bailey of the Middletown Township Police Department (MTPD) shares some vital information in this Public Service Announcement (PSA) about the different types of micromobility devices and the regulations that riders should follow when using them. Please tune in and stay safe!

## MTPD Educates Residents about How to Legally and Safely Ride E-Bikes, Scooters & Skateboards

**E-BIKES, SCOOTERS & SKATEBOARDS**  
What to Know

**CLASS 1**  
Class 1 e-bikes provide pedal assist only, meaning the motor only kicks in when you pedal, and shuts off at 20 mph.

**CLASS 2**  
Class 2 e-bikes have both pedal assist and a throttle, which means they can run without pedaling – but still max out at 20 mph.

**CLASS 3**  
Class 3 e-bikes only use pedal assist but go up to 28 mph. They are often treated like mopeds and may require registration, insurance, and a license if you're under 17.

**Watts** measure electric motor power. 750 watts equals about 1 horsepower.

If your e-bike exceeds **750 watts, 50cc, or 20 mph** on flat ground, it's considered a motorized bicycle and must be registered, insured, and may require a moped license if you're under 18.

Vehicles without pedals are no longer considered bikes and must also be registered and insured.

**E-SCOOTERS & SKATEBOARDS**  
**E-scooters** can go up to 19 mph and don't require registration, but riders under 17 must wear a helmet. They're allowed on roads and bike lanes, but sidewalk use varies by town. **E-skateboards** are limited to 10 mph, for ages 16 and up, and must stay off sidewalks.

Wear your helmet, follow traffic laws, and ride responsibly. For more information, visit [nj.gov/mvc](http://nj.gov/mvc) or contact the Middletown Township Police Department at 732-615-2100.

## Middletown Township Health Department Shares Tips on How to Prevent and Treat "Sea Lice"

The infographic is titled "Seabather's Eruption aka 'Sea Lice'" and features two main sections: "Prevention:" and "At-Home Care:". The "Prevention:" section lists four tips: avoiding beaches with reported larvae, wearing appropriate swimwear, rinsing with salt water, and washing swimwear. The "At-Home Care:" section lists five tips: using antihistamines or hydrocortisone cream, applying vinegar, using ice packs, avoiding scratching, and seeking medical attention if needed. The infographic includes a logo on the left and a small circular icon on the right.

**Seabather's Eruption  
aka "Sea Lice"**

**Prevention:**

- Avoid beaches where larvae have been reported. You can find advisories on [njbeaches.org](http://njbeaches.org).
- Don't wear loose or two-piece bathing suits and avoid wearing shirts in the water. These garments trap larvae more easily.
- Rinse with salt water first, then gently shower. Freshwater can trigger larval toxins.
- Wash swimwear in hot water, then machine dry.

**At-Home Care:**

- Use antihistamines, hydrocortisone cream, or calamine lotion for relief.
- Apply vinegar with 5% acetic acid to the rash to help deactivate toxins.
- Put ice packs on the rash to lessen inflammation and itching.
- Avoid scratching to reduce risk of infection. If you really need to scratch, use soft gloves.
- If an infection occurs and worsens, seek medical attention.

[Click on the graphic to view it in a larger PDF format.](#)

Seabather's eruption, commonly known as "sea lice," is a rash caused when tiny jellyfish or sea anemone larvae get trapped under swimwear and release venom. Don't be fooled by the name — they're unrelated to lice. More common in Florida and the Caribbean, they've also been reported along the Jersey Shore, drifting unpredictably with currents.

Symptoms include tingling under your swimsuit as well as persistent, intensely itchy red or pink bumps under your swimsuit, which are often mistaken for pimples or welts. Children may experience systemic issues like nausea, fever, or abdominal pain. Symptoms typically appear within minutes to hours of leaving the water and can last up to two weeks.

**SAFETY  
FIRST**

**Before you hit the beach, visit [njbeaches.org](https://njbeaches.org) to find information from the NJDEP on beach statuses, water quality sample results, and advisories.**

**Put the name of the beach you're heading to in the map's search bar and look for the Beach Monitoring Station Status in the legend. If there's an advisory, you'll see a yellow symbol. You can click on the symbol to see the latest test results. If the number is above 104, it indicates that the water is not safe to swim in.**

## NJAW Lead Service Line Replacement Program Door-to-Door Canvassing Continues

[Click on the canvassing map to view it in a larger PDF format.](#)

CDM Smith, on behalf of New Jersey American Water (NJAW), started a door-to-door canvassing effort related to the Lead Service Line Replacement Program (LSLRP) in Middletown on Monday, February 3<sup>rd</sup>. The canvassing and internal inspections are currently taking place in the Lincroft Elementary School District in Area 3 on the map above. There will not be any work conducted on Monday, September 1<sup>st</sup> due to Labor Day. The entire canvassing is expected to take place over the next few months.

All CDM Smith inspectors will wear co-branded (NJAW and CDM Smith) high visibility logo vests and will have NJAW-issued Contractor ID badges. Inspectors will introduce themselves and the program to property owners and will then ask to enter the home to inspect the water service where it enters into the home (typically in a basement or crawl space).

The inspector will take exterior photos of the property and interior photographs of the service material and record the pipe material identified. Inspections generally take 15 minutes or less. At no time will residents be asked for money. Any customer that prefers to not have an internal inspection completed will be directed to alternatives to the inspections including self-reporting.

The Middletown Township Police Department is aware of the canvassing. If you have any questions about LSLRP, please email [njawlead@cdmsmith.com](mailto:njawlead@cdmsmith.com) and [LeadFreeNJ@amwater.com](mailto:LeadFreeNJ@amwater.com).
