**Middletown Township Shines A Light On  
International Overdose Awareness Day**

Mayor Tony Perry and the Township Committee proclaimed August 31, 2020 International Overdose Awareness Day in Middletown at Monday night's meeting. The Township has partnered with the Opioid Task Force of the Prevention Coalition of Monmouth County to support this cause by displaying 99 purple flags around the municipal building to remember each life that has been lost in the County due to drug overdose as of June 30. Town Hall will be lit up purple through September 4 in remembrance of those affected as well as to celebrate those in recovery.

We encourage the community to reach out to the Middletown Municipal Alliance for the Prevention of Substance Abuse and Crossroads at the Lincroft Annex should they or a loved one need help with battling addiction. Call 732-615-2277 or email [crossroads@middletownnj.org](mailto:crossroads@middletownnj.org).

## Tornado Touches Down on Lincroft

On Wednesday, a tornado touched down on a baseball field on the campus of Brookdale Community College in the Lincroft section of Middletown. According to a [statement issued by the National Weather Service](#) (NWS), it tossed a set of metal bleachers adjacent to the field, then crossed over Phalanx Road into a residential area, with numerous trees sustaining damage on and around Hickory Lane. The tornado continued a little south of due east and passed near the northeast corner of the Swimming River Reservoir, causing additional tree damage. The tornado then entered another residential area near Swimming River Road and Normandy Road, producing a continued path of damaged trees.

The tornado lifted as it entered the Riverdale West Park in Tinton Falls, where tree damage was no longer observed. The tornado did not appear to cause any direct structural damage, though a couple of homes sustained damage from falling tree debris. The degree of damage is consistent with an EF0 tornado with estimated maximum winds of 80 mph and a continuous, relatively narrow path of around 70 yards in width. Thankfully, no injuries occurred as a result of this tornado.

The Middletown Township Fire Department provided this photo of a home on Green Grove Court in Lincroft. Thankfully, no one was injured.

**What is the recommendation for wearing a face covering/mask inside while patronizing a business?**

According to the New Jersey Department of Health, accommodations can be made if someone is not able to wear a face mask due to a medical condition. Essential businesses that never closed (e.g. a grocery store or a pharmacy) cannot refuse entry to someone who has a medical condition and can't wear mask. They may offer options, such as to provide curbside delivery and limit time spent inside store, but the person must be allowed to enter.

If the person doesn't have a medical condition, but refuses to wear a mask, essential businesses *can* refuse entry but must arrange curbside

delivery or provide a mask, if available. No one can be asked for medical documentation due to various laws that already existed, so people do not need to “prove” why they can’t wear a mask.

## MINIMIZING THE RISK OF COVID-19

The spread of COVID-19 can be broken down into four factors: TIME, SPACE, PEOPLE & PLACE.

Keeping these factors in mind can help you assess your risk while participating in activities.

### Minimizing the Risk of COVID-19

- Limit capacity, especially indoors
- Social distance from others (6 feet)
- Avoid crowded areas
- Choose outside activities vs. inside (dining, worship services, etc.)
- Don't share food/drink, cups or utensils with others; bring your own or use disposable items at outdoor gatherings
- Wear face coverings in public areas
- Wash hands often or use hand sanitizer with 60% alcohol

Singing, yelling/shouting and close contact *increase* the risk of contracting COVID-19.
