

## New Town Hall Construction Update

As of this week, the foundation and underground utility work at the new Town Hall (located behind the Police Station) is nearing completion. Site work around the building continues, including grading and storm water management piping. Underground plumbing and electric is also in progress. The slab floors are the next item scheduled to be completed, weather permitting. The next major phase will be delivery of a crane and

construction of the steel structure starting in February.

The new Town Hall will be a 72,000 square foot, three-story, energy efficient facility that will consolidate approximately 55,000 square feet of operations currently located in several facilities across town. The new facility will allow the town to house most its services under one roof which will offer a “one-stop-shop” for community members to take care of business such as paying taxes, getting a passport or applying for a dog license at a single location.

The new building will allow for the growth of our Township, which includes better amenities and resources, and will enable Middletown to take on a greater regional role through shared services with smaller surrounding municipalities.

**NOTE: Please keep in mind that the current Town Hall (1 Kings Highway) is an active construction site. Those visiting should proceed with caution as construction vehicles are present.**
