The event will begin at 8:30 AM at the Middletown Train Station (22 Church Street). The route will start at the train station and go out 1.55 miles and back on Middletown-Lincroft Road. ## **New Town Hall Construction Update**

Within the last three weeks, our new Town Hall building has undergone a lot of change. Most of the windows are now installed and the exterior brick is continuing to move along. The interior walls are nearly complete and about half of them already have their first coat of primer. Some of the ceiling grids are being installed in the smaller rooms in preparation for lighting fixtures and ceiling tiles. Last Friday, members of the Middletown Township Committee attended the Parker Station Unveiling and Dedication ceremony presented by the Navesink Hook & Ladder Fire Company (NFC). NFC named the train depot for its well-known Cannonball train ride "Parker Station", a sentiment to Lee and Jessie Parker. Lee Parker was a longtime NFC firefighter before he was tragically killed in an accidental explosion at a U.S. Army Nike base in the Chapel Hill part of the township on May 22, 1958. His wife, Jessie, served with the company's Ladies Auxiliary until she passed away in 2001.

Lee and Jessie's daughters, Patricia Parker Schenck and Pamela Lee Marcellus, were there for this momentous occasion. Mayor Tony Perry was proud to speak at the event and to help ensure that the Parkers will never be forgotten in our town.

## State Authorities Urge Residents to Report Invasive Spotted Lanternflies

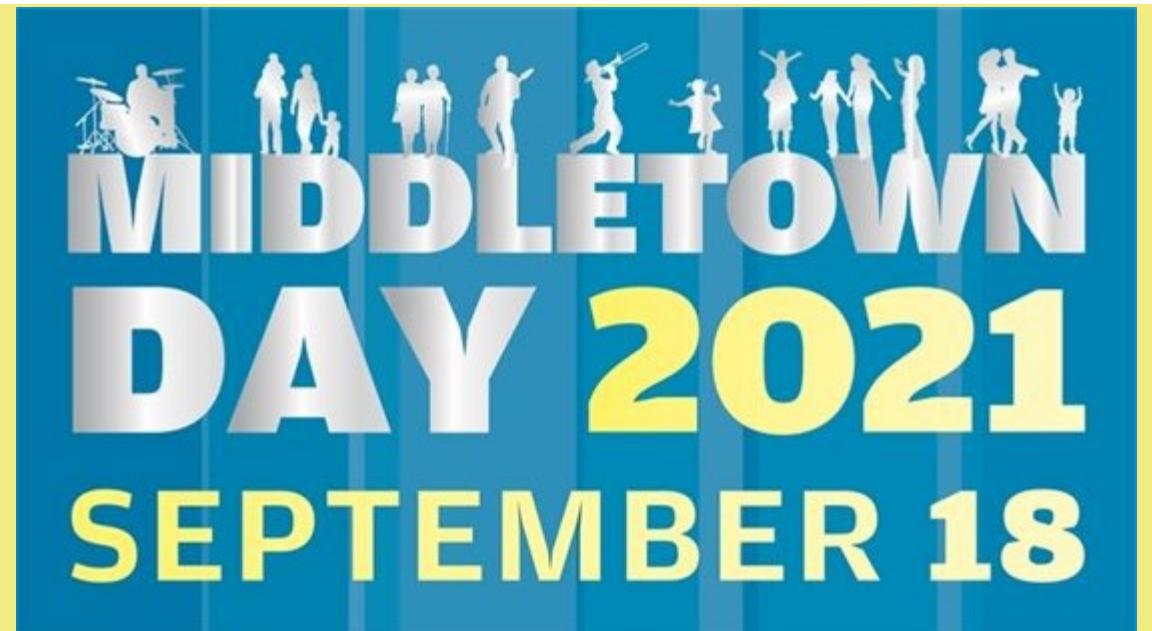

After increased sightings in Monmouth County, the Middletown Health Department advises the community to be aware of the Spotted Lanternfly. The Spotted Lanternfly is a serious invasive pest that feeds on sap from over 70 different plant species. It

excretes honeydew while feeding, which results in mold covering the plant and anything nearby. While Spotted Lanternflies do not directly hurt humans or animals, they can negatively impact our agriculture, economy, and everyday life.

If you see a Spotted Lanternfly, take a photo of it and [report it to the NJ Department of Agriculture \(NJDA\)](#) or call 833-4BADBUG (833-422-3284). The NJDA is urging anyone who comes across the insect to report and destroy it immediately to help slow the spread.

For more information about the Spotted Lanternfly, visit the [New Jersey Department of Agriculture's website](#). For additional resources from the NJDA about the invasive bug and how to help control the spread, [visit the NJDA's Homeowner Resources](#).
