New Jersey American Water Invests \$2.5 Million in Middletown Infrastructure

This week, New Jersey American Water began replacing approximately 9,820 feet of aging water main in the Port Monmouth section of Middletown. The project also includes replacing two fire hydrants and 186 utility-owned service lines along the pipeline route. New Jersey American Water’s local, qualified contractor, J. F. Kiely Construction Co. began work on Monday, February 14th, and expects to be completed within approximately three months, weather permitting. Work hours will be from 7:30 a.m. to 5 p.m. Monday through Friday. Work outside of these hours is not expected unless required to maintain project schedule. Final street restorations will be completed in the summer.
