TIPS FOR CONTACT WITH ANIMALS

SNAPPING TURTLES

TIP #1
Between May and August it is very common to see large snapping turtles in our yards and roads.

TIP #2
Female Turtles will travel quite a distance from water to make a nest and lay their eggs in soft or sandy soil.

TIP #3
Snapping Turtles are not dangerous if left alone. However, they do have a nasty bite and should be left undisturbed to finish their nesting.

TIP #4
Drive carefully near lakes, ponds, and inlets. If you find a turtle has been hit by a car or needs assistance, please contact Animal Control.
