

## Check Out the Progress of the Middletown Recycling Center Upgrades!

The Middletown Recycling Center (52 Kanes Lane) will be closed for renovations until Thursday, August 11<sup>th</sup>. While construction is taking place, limited items are being accepted at the recycling drop-off site at the Middletown Train Station (located in the parking lot off Middletown-Lincroft Road). Visit [www.middletownnj.org/recyclingcenter](http://www.middletownnj.org/recyclingcenter) to see what is and isn't being accepted.

As of Wednesday, July 13<sup>th</sup>, the contractor has begun the demolition work necessary for the proposed improvements. New concrete curbs and sidewalks have been poured, and a new electrical conduit is being installed for the Styrofoam™ recycling machine, security cameras, and building. Visit [www.middletownnj.org/rcupdates](http://www.middletownnj.org/rcupdates) to view the progress.

Improvements to the Middletown Recycling Center will include increasing access and efficiency to the recycling drop-off bins, improving traffic circulation, allowing room for the expansion of recyclable commodities in the future, and ensuring ADA compliance to both the Middletown Recycling Center and Administrative Building.

## Spotted Lanternflies Have Returned: Tips for How to Prevent the Spread

Now that summer is here, spotted lanternflies are back! The spotted lanternfly is a serious invasive pest that feeds on sap from over 70 different plant species. Spotted lanternflies can negatively impact our

agriculture, economy, and everyday life through the honeydew they excrete, which eventually turns into mold.

According to the New Jersey Department of Agriculture (NJDA), Monmouth County is in the "spotted lanternfly quarantine zone". Beginning in July, many spotted lanternfly nymphs enter their final developmental stage before they reach adulthood when they can fly and lay eggs. In this stage, they become bright red and covered in black stripes and white spots. Adult spotted lanternflies also begin to appear in July.

The Middletown Health Department advises residents to kill and report them to the NJDA when spotted. The Middletown Health Department also encourages residents to utilize the NJDA's checklist for spotted lanternfly quarantine areas, in an effort to stop the spread.

Effective Saturday, 7/16**

# 988 SUICIDE & CRISIS LIFELINE

988 is the new three-digit code for the Suicide and Crisis Lifeline that will provide easier access to life-saving services.

Beginning Saturday, July 16<sup>th</sup>, 988 will become the nationwide 3-digit dialing code for crisis and suicide prevention. It will replace the 1-800 number currently used by the National Suicide Prevention Lifeline.

Once connected, an assessment will be conducted to determine if additional help is needed. If so, a response team will be dispatched.

We encourage all our residents to call 988 if they are experiencing a mental health crisis and need assistance.
