- Take precautions to protect yourself and your family from mosquito bites. Use insect repellent; limit time outdoors when and where mosquitoes are biting, especially at dawn and dusk; wear long sleeves and long pants and consider treating clothing with permithrin; and empty containers holding water on your property. Mosquitoes breed in standing water.
- Read the [**Mosquito Habitat Checklist**](#) to help you remove containers of standing water around your house and property. Learn about available [repellents](#) and how they work.
